Business Protection Group Pty Ltd is a provider of bespoke security solutions to government and high profile clients throughout the Asia Pacific region. We offer industry leading security solutions to protect your people and assets.

From security concierge to armed canine units, we offer a wide range of physical and technical services, including A1 grade alarm monitoring and response.

Call us today to discuss how we can help you manage risk.

## Security Risk Management

We have extensive experience in identifying your vulnerabilities and applying resolutions. Our team can manage all aspects of your risk management plan, including day to day security, event planning, disaster and emergency management.

Our collaborative, risk-based approach to managing your security makes your job easier. We employ a full suite of solutions to mitigate risk and ensure client satisfaction.

## The BPG Difference

BPG is an Australian owned company with main offices in Melbourne and Canberra. Our staff are directly engaged and paid above award rates.

We invest heavily in leadership at each of our sites and are committed to the personal and professional development of our people.

## Our Clients

Our valued clients include world leader in real estate services JLL and market leading facilities management company ISS. As well as providing high level diplomatic security across Australia to the UK Foreign Commonwealth & Development Office.
